ATTACHMENT A

COMPONENTS OF THE NATIONAL INTELLIGENCE SURVEY

Basic Intelligence Factbook -- Issued in classified and unclassified editions.
Essentially unchanged.

General Survey -- Each Chapter published as a separate volume, consisting of:

Country Profile

Social Characteristics

Government and Politics

The Economy

Terrain, Transportation, and Telecommunications,

with statistical and map annex, selectively
produced. *

Armed Forces

25X1

Ocean Basins: Oceanography

* For those countries which have a recognized high priority for military geography, transportation, and communications (DCID 1/2, dated 21 January 1972) the T., T., & T. chapter would be expanded

Because of limited production resources, the judgment on whether a T., T., & T. annex would be required would be determined jointly by DIA-OBGI, as would decisions on what items would be included. Each topic would be bound together, but issued in loose-leaf form to provide the flexibility required to maintain the annex efficiently.
